Whereas the stigma associated with mental health continues to persist;

Whereas more than 57,000,000 people in the United States suffer from mental illness;

Whereas approximately 1 in 5 children and adolescents has a diagnosable mental disorder;

Whereas more than a quarter of our troops suffer from psychological or neurological injuries sustained from combat, including major depression and post-traumatic stress disorder;

Whereas more than half of all prison and jail inmates suffer from mental illness;

Whereas mental illness is the leading cause of disability in our Nation;

Whereas major mental illness costs businesses and the United States economy over \$193,000,000,000 per year in lost earnings;

Whereas untreated mental illness is a leading cause of absenteeism and lost productivity in the workplace;

Whereas in 2005, over 32,000 individuals committed suicide in the U.S., nearly twice the rate of homicide;

Whereas suicide is the third leading cause of death among people between the ages of 15 and 24;

Whereas in 2004, individuals age 65 and older comprised only 12.4 percent of the population but accounted for 16.6 percent of all suicides, and the rate of suicide among older people in the United States is higher than for any other age group;

Whereas 1 in 4 Latina adolescents report seriously contemplating suicide, a rate higher than any other demographic;

Whereas studies report that persons with serious mental illness die, on average, 25 years earlier than the general population; and
